Leonardo da Vinci

Foreword

In the final issue of the WBT WORLD newsletter, here are presented two courses: "Pedagogy of Communication in Formation" - developed by University Transilvania of Brasov (Romania) and WITEC (Finland), and "Pedagogy of Differences" - developed by WITEC (Finland). The newsletter includes news about project, and data regarding scientific events in the field of e-learning.

Courses

For this issue...

- **Pedagogy of Communication in Formation** - developed by [University Transilvania of Brasov](#) (Romania), and [WITEC](#) (Finland)

This course has two main objectives, as follows: to present the basic concepts (declarative knowledge) regarding the management of virtual class and learning groups, and adequate methods and techniques (procedural knowledge), and to present the most common way of co-operation between institutes in web-based education.

Events

- **ICICTE 2006 - International Conference on Information Communication Technologies in Education, Rhodes Island, 6-8 July 2006**

ICICTE 2006 will seek to address the many challenges and new directions presented by technological innovations in educational settings. With the keynote speaker, plenary sessions, workshops, and forums examining the integration of technology into all facets of education, the conference will provide participants with a forum for intensive interdisciplinary interaction and collegial debate. Those attending ICICTE 2006 will leave with an excellent overview of current thinking and practices in applications of technology to education.

WBT WORLD News

- **WBT dissemination event**

On January 30th, 2006, the Romanian project partners, Transilvania University of Brasov and Elite Training & Development, Bucharest, will organize in Brasov a dissemination event in order to present the WBT WORLD website to the general public, mainly to the target group, teachers and trainers, as well as representatives of stakeholders, training companies etc. The aim of the event is to present, at the beginning, general information regarding WBT WORLD project, followed by a presentation of the informative section of the website. The project E-learning platform and WBT courses will be presented in detail, followed by short demonstrations.
